

2/1/72

Dear Mr Nogelmann,

Today my search for your rental at Harmon
Brook, where Mr Weiner furnished me with your
address. I have been trying to locate you since late 1969.
You may not remember me as we only met
one time that was in May 1969 in your Ocean Shop
I had my young son with me on that occasion I provided
1794 6-1, 1797 6-3, 1805 6-3, 1795 6-1, 1804 6-11 and
1794 6-4. The first 3 of these ever are featured in
my book. When I returned to New York your shop was
gone and the building being torn down. I tried on
numerous occasions to find out where you had gone
all I heard was that you were working for a distributor.

Since you were no longer an EAC member as I
got was your shop address my letter was returned
as "would left no address"

Today when I found out the name of the firm I contacted
another Counselor. Who would have that changed that
I had heard of your employer, but I have. One of my
EX clients is going public through the firm. If you will
look on the Prospectus for Urban Industries. Can you
will find that I was the certifying accountant for their
October 31, 1969 financial statements. ~~the firm~~

I have sent you a copy of my book on Half Century
Postal Post, which should like about a week to appear.
You are wondering why this delay then there are a
number of reasons. First of all you furnished me with
a considerable no date on the Prospectus in Half Century

been plagiarized from Brown with the same manner
violently disagree with this and sincerely wish
Brown the way to the degree with Paul Jordan
when we next again let me know your side of the
story.

Shortly after I was in your store it started to leak
on the book I went over every day that Waller Brown
had written and checked it out. I have a large set
I have a pretty complete collection and the National Archives
are here in Washington. I was greatly assisted by Ray Munde
who has a full library he took a book of my References
and acknowledge section. You will note that that
I mean Waller Brown is not listed He likely refused
to help me in any way. I also had help from the Museum
I could write more pages on what I felt through I put
to have together but I won't. I would appreciate your
Comments on the book after you have read it there are
many points in this book that are not readily apparent
on the first reading. Try using it as a reference and
think about the Emission Sequence that I have for
back data then write me your Comments I hope
you will enjoy it as much as I have in writing it
and I will remember Waller Brown isn't any plagiarism
for in many instances I have taken in children
which when he has. I have also questioned many of the products.

Sincerely

Byron A. Colson
